

Thomson Glide Screw™ is a “Golden Mousetrap” Awards Winner

The innovative Glide Screw from Thomson has won the Design News 2013 “Golden Mousetrap” Award in the Automation and Control Motors and Mechanical Motion Devices category. The awards showcase the best new products and celebrate people who are leading and invigorating design, engineering and manufacturing in North America.

Announced on February 11th during the Pacific Design & Manufacturing Show in Anaheim, California, the Glide Screw was one of three products to be selected for presentation by panelists in the center stage at the show.

UPCOMING WEBINAR: **NEW! Thomson PC-Series: Replace Pneumatics with Electric Actuators**

Tuesday, February 25, 2014 at:

PST (Los Angeles, USA)	8 a.m.
CST (Chicago, USA)	10 a.m.
EST (New York/Detroit, USA)	11 a.m.
GMT (London, United Kingdom)	4 p.m.
CET (Berlin, Germany)	5 p.m.

Next generation machines and equipment need to be more compact while delivering higher performance and more flexibility. Electric actuators can simplify your design and deliver savings at the same time.

This webinar is held by James Marek, Director of Engineering at Thomson Industries, Inc. and is intended to provide useful engineering information.
